Saditim Imam's Digital Portfolio
Reading Guide

Welcome to my digital portfolio! This guide is designed to help you navigate through the key components of my semester-long journey, encompassing research, design, and development. At this time, I have implemented content for "Individual Project". Please follow the steps below for an immersive exploration:

1. Introduction:

Start your journey with a brief overview of my portfolio. Understand the overarching theme and purpose of my work. You can find links while exploring the portfolio. These links are going to take you to the full process of the research made. If you are not interested in exploring the full portfolio and only want to see the research methods, you can click on the links down below in this document. Explore Introduction

2. Main Research Question:

Dive into the core of my exploration with the main research question. Read a concise summary and follow the link to the full research methods documents for in-depth insights.

Explore Interactive Prototype
Explore Observation

3. Sub Research Question 1:

Uncover the nuances of my work by exploring sub-research questions. Each sub-question holds a piece of the puzzle. Click the links for comprehensive details.

Explore Best, Good & Bad practices
Explore Requirements List with User Stories

4. Sub Research Question 2:

Explore Trend Analysis
Explore Design Pattern Search

5. Sub Research Question 3:

Explore Interview
Explore A/B Testing

6. Additional Content

Uncover behind the scenes of time management, code structure, sketches and much more.

Explore Additional Content

7. Conclusion:

Feel free to click on the links and navigate through the sections that interest you the most.

Thank you for exploring my digital portfolio, and I hope you find it insightful!
